DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The art of record does not disclose nor suggest, among other things, a remaining battery capacity computation system, including an electrical device having a current detection section, which detects current flowing in the battery and outputs a detected current signal at a fixed transmission period. The communication processing section provided in the remaining capacity computation apparatus outputting the remaining capacity signal to the communication circuit, timed after completion of the output of one detected current signal and until commencement of the output of the next detected current signal from the connected electrical equipment unit to the communication circuit, for transmission of the remaining capacity signal to the connected electrical equipment unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Sherry can be reached on 571-272-2084. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
